1. This Office action is in response to the election filed July 22, 2004. Claims 1-18 are pending. Claims 15-18 have been withdrawn from consideration as directed toward a non-elected invention. Because the election was made without traverse and all remaining claims have been determined to be patentable, an Examiner's amendment cancels the non-elected invention and places the application in condition for allowance.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please cancel claims 15-18.

3. Claims 1-14 are allowed.

4. The following is an examiner's statement of reasons for allowance: The claims recite a power meter and a method of operating a power meter that senses the temperature of the power meter and disconnects the power when the meter exceeds a threshold temperature. Such a combination is not taught or suggested by the prior art of record. The disconnection of power by a meter is generally known. However, such action is not performed in response to a meter exceeding a threshold temperature. Boyden teaches a system for detecting excessive temperature in a junction box and activates an alarm. A junction box, however, does not suggest the use of a system in a power meter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Albert K Wong whose telephone number is 703-305-8884. The examiner can normally be reached on M-Th.
